

COMPARISON OF SURVEY RESULTS BY YEAR

The table below outlines the percentages of responses from the three most recent school year surveys (2022-2023, 2023-2024, and 2024-2025). Please note that for each survey year, not all respondents answered every question. All percentages calculated are based on the total weighted number of people answering the question, rather than the total number of people who completed a survey. In addition, the percentages for Table 10.2 represent percentages by year; therefore, for each response category, percentages will total 100 percent within each year and not across all years.

Table Comparison of Survey Results by Year

Survey Indicator	2022-2023 (Year 15) (Percent)	2023-2024 (Year 16) (Percent)	2024-2025 (Year 17) (Percent)
<i>Survey Participation by School District</i>			
Clark County	72.8	74.2	74.7
Washoe County	15.1	15.2	15.1
Rural Counties	12.1	10.6	10.2
<i>Demographic Information</i>			
<i>Gender of Kindergartener</i>			
Male	49.2	50.3	49.9
Female	50.8	49.7	50.1
Other	0.0	0.0	0.0
